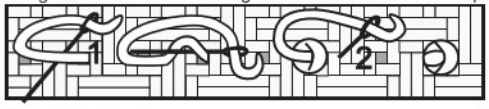
French Knot

Use one strand of floss and bring the needle up where indicated on the chart by a dot where the chart lines intersect. Wrap the needle 1 time with the floss. Hold the floss tightly as you insert the needle back into the fabric 1 thread left or right of the hole. Pull through to form a small knot on top of the fabric.



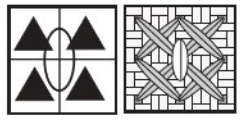
Loop Method:

(To use any time an even number of floss strands is called for --2, 4, or 6). When two strands are required, take one strand 30" long and fold it in half. Thread the needle and pull the loop end lower than the 2 cut ends. Bring the needle up through the fabric until the cut ends appear. (Fig.1) As the needle goes back through to make the first half cross, take the needle through the loop (Fig. 2) and it will **lock**, leaving no **tail** on the back of the fabric.

Fig. 1 Fig. 2

Instructions for Eyes

When instructions read: "Add a little white stitch to eyes with 1 strand where marked ⊙.", make a short stitch that just covers the intersection.



How To Add Beads:

Add beads to your project after all other stitching and any necessary laundering is done. A #28 Tapestry needle or a beading needle is required for adding small beads. Use the loop method (see Figs. 1 & 2) to anchor one doubled strand of floss on the back of the project. Use the color of floss indicated in parentheses where beads are listed.

Bring the needle up where indicated on the chart by the symbol for beads (A) and pass through the bead (B). Pass through the fabric and then, if this is the beginning of the new thread, through the loop to anchor the thread (Fig. 1 & 2). Next, bring the needle up as if to cross a stitch (C), pass through the bead again and go down through the fabric (D) and anchor with a small securing stitch on the back.

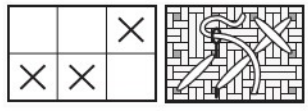
Cross Stitch Instructions

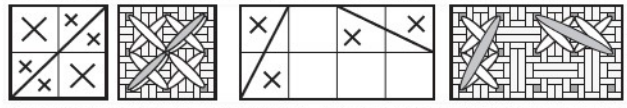


Full Cross Stitch

Be sure that all of your stitches lie in the same direction. Bottom stitches should lie from bottom left to upper right and top stitches from bottom right to upper left. Work the stitches from the bottom to the top of the stitch, from left to right, then cross them as you work from right to left, still coming up at the bottom of each stitch and going down at the top.

Full Stitch with Backstitch

When there is a backstitch over one or two squares and the symbol is the



same on either side of the backstitch, make a full cross stitch in that square. Add the backstitch last in the color indicated in the instructions.

1/4 Stitch

1/4 stitches on your chart: 1/4 stitches on fabric:

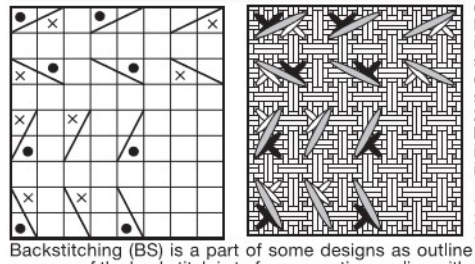
Helpful Hints:

1. Stitch from corner to center using the color indicated by the symbol.
2. Backstitch last in the color indicated in the instructions.

Special Note: If there are NO backstitch instructions given, stitch the backstitch line in the same or most predominant color in that area of the design.

3/4 Stitch

3/4 stitches on your chart: 3/4 stitches on the fabric:



Helpful Hints:

1. If the symbols are different on either side of the backstitch or there is a symbol on just one side of the backstitch, this will indicate that 3/4 stitches should be used in the color indicated by the symbol as shown on left.
2. Add the backstitch last in the color indicated in the instructions.

Backstitching Instructions

Backstitching (BS) is a part of some designs as outline or as lettering. The purpose of the backstitch is to form a continuous line with each stitch touching. It may travel in any direction.
